

AHMED SAMEH MOHAMED MAHMOUD

Flutter Developer | Mobile Application Engineer

Mansoura, Egypt | 01090047338 | ahmedsameh77sa@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Flutter Developer and Computer Science graduate with hands-on experience building cross-platform mobile applications using Flutter, Dart, Bloc/Cubit, and Clean Architecture. Delivered projects across e-commerce and healthcare domains, integrating REST APIs, Firebase, and Supabase. Completed three professional training programs (ITI, NTI, WE) and led a Flutter team for a graduation project. Seeking a Flutter Developer role to deliver scalable, high-quality mobile solutions.

TECHNICAL SKILLS

Languages: Dart, JavaScript, Python, C#

Mobile Development: Flutter, Responsive UI, Material Design 3, Custom Widgets

State Management: Cubit (Flutter Bloc)

Backend & Databases: Firebase (Auth, Firestore), Supabase, SQLite

API Integration: REST APIs, Dio, HTTP

Architecture & Patterns: Clean Architecture, MVVM, OOP

Tools: Git, GitHub, Android Studio, VS Code, Xcode, Postman, Figma

PROJECTS

Care Link — Healthcare Mobile Application

Flutter · Dart · Cubit · Dio · REST APIs · Supabase · Clean Architecture

- Built a Flutter healthcare app connecting users with health services, featuring authentication, profile management, and appointment-related flows across a responsive cross-platform UI.
- Integrated REST APIs via Dio, used Supabase as backend, applied Clean Architecture and MVVM, managed state with Cubit, and collaborated with a team using Git and GitHub.

Sporty — Sports E-Commerce Application

Flutter · Dart · Cubit · Supabase · Clean Architecture

- Developed a full-featured sports e-commerce app with authentication, product browsing, shopping cart, wishlist, and profile management using Bloc/Cubit and Clean Architecture.
- Integrated Supabase backend for auth and data, built a fully responsive UI, and collaborated via Git/GitHub version control.

Stylo — Fashion E-Commerce Application

Flutter · Dart · Cubit · Dio · REST APIs · Clean Architecture

- Created a modern fashion e-commerce app with product browsing, cart management, and authentication, integrating REST APIs via Dio for all data operations.
- Applied Cubit state management and Clean Architecture for scalable, maintainable code across a responsive multi-screen UI.

LEADERSHIP

Team Leader — Graduation Project

2026

- Led a Flutter development team: defined architecture, distributed features, coordinated code integration, and maintained quality throughout the project lifecycle.

TRAINING & CERTIFICATIONS

ITI Flutter Development • NTI Flutter Development • WE Flutter Development • Flutter & Dart — The Complete Guide (Udemy)

EDUCATION

B.Sc. Computer & Information Systems (Software Engineering) — Mansoura University

GPA: 3.1 / 4.0 | 2026

LANGUAGES

Arabic — Native | English — Upper-Intermediate (B2)
