PROFESSIONAL SUMMARY

Fresh Software Engineering graduate (Mansoura University) specializing in Flutter mobile development, with four independently built and team-based Flutter applications spanning healthcare, fashion, and sports e-commerce. Experienced in Clean Architecture, MVVM, Cubit state management, REST API integration, and Firebase/Supabase backends, reinforced by 384+ hours of structured Flutter training (ITI, NTI, WE) and hands-on team leadership on a fashion e-commerce project. Seeking a Junior Flutter Developer role to apply proven architecture and API-integration skills in a production environment.

TECHNICAL SKILLS

Languages: Dart, JavaScript, Python, C#

Mobile Development: Flutter, GoRouter, Responsive UI, Material Design 3, Custom Widgets

State Management & Architecture: Cubit (flutter_bloc), Clean Architecture, MVVM, Dependency Injection, OOP

Backend & Storage: Firebase (Auth, Firestore, Storage), Supabase (Auth, Database, Storage, RLS), SQLite, Hive, SharedPreferences, Flutter Secure Storage

API Integration: REST APIs, Dio, HTTP, JSON

Testing: Unit Testing, Widget Testing, Integration Testing

Tools: Git, GitHub, Android Studio, VS Code, Xcode, Postman, Figma

PROJECTS

CareLink — Graduation Project | Flutter · Dart · Cubit · Dio · REST APIs · Supabase · Clean Architecture · MVVM

github.com/BENSAMEH/CareLink_Project

- Contributed as a developer to a team-built ~20-screen Flutter healthcare app, applying Clean Architecture and MVVM with Cubit state management; delivered with UML system design documentation and automated tests.
- Supported Supabase backend integration (Authentication, Database, Storage, Row-Level Security) and REST API integration via Dio; collaborated with the team using Git/GitHub for version control.

Stylo — Fashion E-Commerce Application (NTI Final Project) | Team Leader | Flutter · Dart · Cubit · REST APIs · MVVM

github.com/BENSAMEH/stylo_app

- Led a team to build a fashion e-commerce app, integrating REST APIs (~10 endpoints) within an MVVM architecture with Cubit state management; implemented core commerce flows including product browsing, cart management, and authentication.
- As team leader: defined the technical direction, distributed feature ownership, coordinated code integration via Git/GitHub, and maintained code quality across a responsive, multi-screen UI.

Sporty — Sports E-Commerce Application (WE Final Project, Solo) | Flutter · Dart · Cubit · Supabase · Clean Architecture

github.com/BENSAMEH/sporty_app

- Independently designed and built a full shopping flow with admin-side product management, applying Clean Architecture and Cubit state management end-to-end.
- Integrated Supabase for authentication and data persistence, and managed the full development lifecycle solo, including version control via Git/GitHub.

TRAINING & CERTIFICATIONS

ITI — Flutter Development Training Program | Information Technology Institute | Jul-Sep 2025 | 144 hrs | Online | Certified

- Final project: ShopEase — Flutter e-commerce app with Firebase Authentication, Cloud Firestore, and Dio-based REST API integration using Cubit.

NTI — Flutter Development Training Program | National Telecommunication Institute | May-Jul 2026 | 120 hrs | In-person | Certified

WE — Flutter Development Training Program | WE Telecom Egypt | Jan-Jun 2026 | 120 hrs | Online | Certified

EDUCATION

B.Sc. in Computer & Information Systems, Software Engineering — Mansoura University | GPA: 3.1/4.0 | 2026

ADDITIONAL EXPERIENCE

Sales — Mobile Phone Retail | 2022 – Present | Sales and technical troubleshooting for mobile devices.

LANGUAGES

Arabic — Native | English — Upper-Intermediate (B2)
